Game Objective

Swipe away the illness-causing germs using the power of soap to climb the ladder of success and be the first to grab the H for Handwashing trophy!

Set up

- 1 Place the Germ & Ladders Board in the center.
- 2 Each player must select a pawn and place it on START on the Germ and Ladders Board.
- 3 Keep the soap placard handy!
- 4 The players start by colouring all the germs on the board (Germ outline marked on the board) with the write and wipe markers provided. (in case of unavailability use sketch pens)

Here's what you'll need

How to Play

- 1 Each player takes turns to roll the dice. (Youngest player rolls 1st – then players take turns clockwise)
- 2 The players get an extra turn if they roll the dice and get a six.
- 3 Each player moves their pawn forward based on the number shown on the dice.
- 4 If a player's pawn lands on a soap square at the bottom of a ladder:
The player holds the soap placard and says, 'Wash the germs away', and fights germs by wiping them off the ladder and moving up, closer to the trophy!

But hold on a second! Just like in real life, those sneaky germs can come back. Once you climb a ladder, make sure to colour that germ in again!

- 5 If a player's pawn lands on a square depicting germ catching activities that can make the player ill:

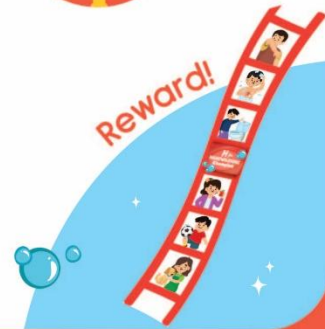

The player must slide down the snake, back to the square where the tail ends, setting them back in their journey to success.

- 6 The last player to reach the H for Handwashing trophy leads the Handwashing with Soap Champion Pledge along with other players.

- 7 The first person who wins gets the H for Handwashing champion reward
